# **EDITORIAL**

Because **HEXIS** is committed to continuous improvement and operational excellence, the company has chosen this year to develop its CSR policy in order to come closer to the standards imposed by article 116 of the law on new economic regulations (NRE) of 2001, even though the company is not subject to the latter. This desire to move towards a "global QSE / CSR" report reaffirms **HEXIS**' ambition to be transparent with its stakeholders about the challenges of the plastics industry, the responses it provides, the objectives it has set and its progress strategy.

**Caroline MATEU**President of the Board of Directors

**Clément MATEU** *Managing Director* 

The combination of innovation, new technologies and industrial knowhow must always be deeply tied to a sustainable development rationale.

We all have a part to play in addressing the challenges of our society. As individuals but also as organisations. Tomorrow's industry must reconcile a local and international dimension, and sustainable production of useful and not superfluous goods.

Times of crisis often help to take us back to basics. More than ever, we are confident in the direction that has been taken by the company for many years. That of a local industrial vision, anchored in the territories from which we develop an international export ambition.

Territorial solidarity is an integral part of what we call societal innovation. Positive trends often emerge from listening to others, from an interest in what ties people together within a society, and in the purpose that brings us together and motivates our action in the service of others and the world.

The combination of innovation, new technologies and industrial know-how must always be deeply tied to a sustainable development rationale. It is a virtuous circle that is placed at the heart of our corporate project and which gathers us around the fundamental values of humanism, innovation, commitment and customer satisfaction.

A responsible and sustainable approach, all of us together, to produce and consume better. In order to provide an ambitious response to this aspiration, with a strong commitment over the long term, HEXIS has set itself the mission of offering our customers an "informed choice". This means not only providing the best products and services, transparent information and expert advice, but also guaranteeing the highest ethical standards in the conduct of our business model.

# REDUCE THE ENVIRONMENTAL IMPACT OF OUR ACTIVITIES SUSTAINABLY AND SIGNIFICANTLY

Continuously reduce the diffuse atmospheric emissions from our production.

Reduce our waste deposits while favouring the recycling of materials.

Propose solutions to optimise the life cycle of our products.

Reduce our energy impact by using the right amount of energy.

# INNOVATE AND EVOLVE TOGETHER TOWARDS A MORE RESPONSIBLE INDUSTRY

Anticipate and meet customer expectations and requirements. Be a profitable and growing company in the eyes of investors. Involve all staff in our quality approach.

Participate in the development of French industry.

# OPERATE ETHICALLY WITHIN OUR TERRITORIES

Work with our suppliers to achieve more sustainable sourcing. Promote business ethics in our activities.

Contribute to the socio-economic development of the territories. Reduce the amount of waste and the ecological impact of our shipments.

#### CREATE THE WORKING CONDITIONS TO ENABLE EVERYONE TO ACHIEVE THEIR FULL POTENTIAL

Promote sport within the company. Reduce the factors that make work arduous.

Guarantee safer working conditions in each of our activities. Facilitate internal and external communication.

#### FROM COMMITMENT TO ACTION

Anxious to offer its customers a range of products and services that meet the societal and environmental challenges of today and tomorrow, the HEXIS Group is committed to concrete actions on a daily basis:

- Purchase of FSC and PEFC paper and bio-sourced cardboard
- Launch of a roll core recovery programme at our customers' sites in 2022 to be recycled in our manufacturing processes
- Waste recovery

From the purchase of its raw materials to the end of the lifecycle of its products, HEXIS adopts a sustainable development strategy for a more responsible industry.

# **HEXIS RECEIVES TWO CERTIFICATIONS**

In 2020, obtained no less than two ISO certifications.

In the difficult context of the pandemic, the joint efforts of all our teams have enabled us to renew our ISO 9001: 2015 certification for our quality management system. Add to this two new certifications:

**ISO 14001:2015** for our environment management system.

This **collective achievement** underlines our commitment to continuous process improvements in terms of quality and the environment, while harnessing best practices.

The certifications cover all aspects of design, risk analysis in terms of products and processes as well as software and product validation. They make sure our customers can rely on us when addressing their most specialised and demanding markets.

"In addition to the token of trust these two certifications represent, they are also a real driver for differentiation, further strengthening the maturity of our management systems", explains Guillaume LEONARDON, Head of Quality, Security & Environment.

# **SOLUTIONS FOR PROTECTION & SOCIAL DISTANCING**

# Your safety and the safety of your staff and customers is our priority

Communicating protective measures, managing people flows and ensuring physical distancing

#### The AG/PG anti-graffiti range

Highly transparent, ultra-smooth films for easy cleaning of graffiti.

#### HW301WM1

Printable anti-slip film (R10, DIN 51-130 standard), up to 6 months, for application on indoor floors, compatible with eco-solvent, solvent-based, latex and UV inks.

# MICROTAC ME2000

Plotter film, black or white, removable for up to 6 months, for application on flat indoor and outdoor surfaces.

# 4 6 VCXR201WG1

Self-adhesive film with extra-reinforced adhesive, suitable for numerous substrates (e.g. textured and low-energy surfaces).

## The GFLI and GFLX range

Anti-slip laminates (R9 to R11, DIN 51-130 standard), for application on indoor and outdoor floors.

02

# Ensuring a healthier environment and easy cleaning of frequently touched objects and surfaces

Protective anti-projection film, ultra-transparent and adhesive-free.

## 2 PURE ZONE® protective films

Anti-microbial protection films, patented to limit the spread of bacteria on surfaces, proven antimicrobial efficacy 24/7. Available in gloss, matt and ultra-transparent gloss finish.

# 3 Hydroalcoholic gel (GELO5) and solution (SHAO5)

Made in France, available in economy-sized 5-litre canisters.

Patent-protected technology tested for effectiveness after 1 hour of contact:

- ANTI-VIRAL (according to ISO 21702)
- on Coronavirus SARS-CoV-2\* strain\* at 97%
- on human coronavirus strain HCoV-229E à 99.87%
- ANTIBACTERIAL (according to ISO 22196)
- on 6 strains, causing several diseases\*\* at 99.99%  $^{\ast}$
- \* Refer to technical documentation available on www.hexis-graphics.com
- \*\* Diarrhoea, gastrointestinal disorders, flu-like symptoms, neurological disorders, urinary tract/utaneous/pulmonary/ophthalmological infections.

#### → PROTECTION

#### & SOCIAL DISTANCING

# H HEX'PERIENCE

Our **HEX'PERIENCE** concept allows you to personalise your surfaces hygienically. Combine it with one of our anti-microbial textured laminates (leather or wood effect, gloss or matt finish) to add further value to your decorations - hygiene and safety.

Combining decoration with anti-microbial protection

PCWOOD01\*

PURE ZONE® PVC-free, wood-effect cast laminate with anti-microbial features

2 PCAMPGB

**PURE ZONE®** leather-effect cast PVC laminate with anti-microbial features

\* Available while stocks last

PURE ZONE® cast PVC laminate, gloss finish, with anti-microbial features

#### Customising work clothing and safety material

#### **1** UFLEX5S

Printable Flex film, quick application, suitable for lettering, small logos and images.

## 2 NYLCUT

Plotter flex for water-repellent substrates and coated nylon.

## **3** UFLEX7PV2

Printable flex for detailed cut-outs, easy weeding thanks to its non-adhesive liner.

#### **4** SPEEDCUT

Plotter flex with adhesive liner, fast shaping for chest pocket logos and large-format graphics.

#### 5 UFLEXCLEAR

Very thin transparent printable flex. No tape for transfer on fabric required. For use with white or very light colours fabrics.

#### **PRINTABLE FILMS**

- > KROMPRINT: printable chrome film, HEX'PRESS
- > HX301EPS: satin Ecological Print film, liner **HEX'PRESS**
- > V300EPS: satin Ecological Print film

- > HX203EG: printable etched glass film
- > PET50CG1: clear gloss PET film
- > XTPRINT: printable gloss film with extreme adhesion for motor cycle kits

#### P. 122

#### **LAMINATES**

- > PC300: PU gloss laminate
- > V750S: polymeric satin laminate
- > VCR740B/M: hybride gloss/ matt laminate, reinforced adhesive
- > AGCR436M: mat PET anti-graffiti laminate reinforced adhesive
- > Spécial kit sports extrêmes: XXTWHOOPS grained laminate, XT300, XT300M, XT480, XTTWICE double-sided adhesive film

P. 140

# **DECORATION**

> New HEX'PERIENCE designs

# **BODYWORK PROTECTION**

- > DFENCEONEX: self-healing film 100µm
- > BFWIDE: self-healing film, large widths
- > HEXLIGHTS: protection film with light black and deep black appearance for vehicle headlights
- > **HEXFLARE**: decoration film for vehicle headlights

#### P. 164

#### **FILMS FOR TEXTILES**

- > BRICKCUT: Flex, ideal to add a 3D effect to markings
- > **SLIMPRINT:** fine printable Flex

#### **PROTECTION FOR SURFACES & PEOPLE**

> PURZONORIB/M: anti-microbial laminate

> T5000

**EUROPEAN CLASSIFICATION ACCORDING TO NF EN 13501-1** 

(fire resistance rating)

PVC product with a corresponding product without PVC

**HEX'Press liner** 

# FILMS FOR FULL WRAPS

SKINTAC HX45000 CAST FILM	16 - 17
SKINTAC HX30000 CAST FILM	18 - 19
SKINTAC HX20000 CAST FILM	20 - 21
HEXIS DAM	22

#### CAST FILM

#### **SKINTAC HX45000**

**3D** 

**LONG-TERM** 

**FULL WRAPS** 

**AUTOMOTIVE FLEETS & BOATS** 

Fully conformable, **SKINTAC** HX45000 can be easily applied on any indoor or outdoor surface. Its excellent performance and conformability allow it to be used on curved or textured surfaces (welds or rivets). Thanks to its surface sliding properties, it offers easy and time-saving application. Particularly suitable for application on boats.

#### **DATA SHEET**

- HIGH-PERFORMANCE MULTILAYERED CAST FILM
- FROM 100 TO 150 MICRONS DEPENDING ON PRODUCT CODE
- **HEX'PRESS LINER**

#### PERMANENT RETRO-REFLECTIVE FILMS FOR **ROAD SIGNS**

**ULS800** 

#### **CLASS 2 - STANDARD** EN 12899-1

#### **CLASS 2 RETRO-REFLECTIVE FILM**

#### **MEDIUM LEVEL OF VISIBILITY**

#### **VISIBLE UP TO 250 METRES**

Made with a honeycomb microbead structure, it is used:

In open countryside, for all signs more than 2 metres high and signs on motorways and trunk roads, whatever their height.

In urban environments, for all signs in areas where the maximum speed limit is 70km/h and at type AB priority roads and junctions (see sign graphic). Road signs covered with **ULS800** films are highly visible both day and night and are especially recommended for sinuous roads.

CARBIDE

#### **HEXIS ADVICE**

Class 2 films can be used instead of Class 1 films.

For more information on reflection coefficients, download our technical data sheets from our website.

Looking for a printable retro-reflective film?

Take a look at the **R85120** film on page 114.

#### PERMANENT RETRO-REFLECTIVE FILMS FOR **ROAD SIGNS**

**ULX800** 

#### **CLASS 2 - STANDARD** EN 12899-1

#### **CLASS 2 RETRO-REFLECTIVE FILM**

#### **SUPERIOR LEVEL OF VISIBILITY**

#### **VISIBLE UP TO 500 METRES**

Thanks to its micro-prismatic technology, the ULX800 range significantly improves the perception and visibility of road signs.

Providing over 500 metres of visibility both day and night, it is ideal for areas with difficult traffic conditions.

The retro-reflective signs can be seen up to 800 metres ahead on main roads running straight.

#### P8100

#### **CLASS 1 - STANDARD** EN 12899-1

#### **CLASS 1 RETRO-REFLECTIVE FILM**

#### **LOWEST LEVEL OF VISIBILITY**

#### **VISIBLE UP TO 100 METRES**

Made from acrylic resin and glass microbeads, this multilayered film is used for roads in open countryside and in urban areas where Class 2 films are not mandatory.

Road signs covered with P8100 films are visible both day and night.

## WHITE / RED REFLECTIVE CHEVRONS

#### **CLASS A & B**

#### STANDARDS TPESC-A 19112 & TPESC-B 5098

#### Approved by UTAC.

Light and commercial vehicles marked with our approved reflective stripes are highly visible both day and night, improving road traffic safety.

Class A / TPESC-A 19112 Multilayered microbead technology

Class B / TPESC-B 5098 Honeycomb microbead technology

**Class A** stripes can be used for all works and service vehicles and machinery moving slowly or parked on public roads. More specifically, they are for security and works vehicles travelling in urban areas or on roads with a speed limit below 90 km/h.

**PRODUCT** 

CODE

BACS1

CLASS A

BACS4

**CLASS B** 

BACS44

**CLASS B** 

**Class B** stripes ensure visibility from at least 250 metres away. Their honeycomb microbead technology provides a reflection coefficient over and above the minimum legal requirement. Highly visible, they are used on roads where the speed limit is 90 km/h or above.

**HEXIS** offers approved conspicuity marking kits, precut in its French factories.

## Find out about our precut conspicuity marking kits

Easy to install, adapted to the shape of your vehicle, our kits are available in Class A\* or Class

#### Class A

Multi-layered microbead technology

#### Class B

Honeycombed microbead technology

never been so easy!

\* UTAC approval

## 1 vehicle = 1 kit Over **150 templates** for kits available

## **Precut conspicuity** marking kits

HEXIS conspicuity marking films are cut to size and applied directly to the bodywork of your vehicle.

They make your vehicle more visible because of their reflective finish that works at night.

## Which vehicles are subject to conspicuity warning signs?

Emergency vehicles, whether stationary or moving slowly along the road, must be equipped with approved signs.

#### What are the advantages of our conspicuity marking kits?

to requirements

#### APPROVAL //

Marking film with UTAC\* approval

#### VISIBILITY //

Day and night up to 500 meters

#### RESISTANCE //

Durability of up to 7 years

#### **EASY INSTALLATION** //

No cutting on the vehicle bodywork

#### COST-EFFECTIVE SOLUTION //

No DTP, no proofreading or production

Available in 2022

For further information, please visit our website: www.hexis-graphics.com

#### APPROVED MARKINGS

#### REFLECTIVE STRIPES FOR HEAVY GOODS VEHICLE SAFETY

#### **CLASS C - STANDARD ECE104**

PRODUCT CODE	WIDTH MM	LENGTH LM
VC104R-21 WHITE	51	50
VC104R-41 YELLOW	51	50
<b>VC104R-51</b> RED	51	50

Highly visible conspicuity markings play a crucial role in improving road traffic safety. The VC104R range has been approved and meets the legal requirements for the marking of heavy goods vehicles.

Types of vehicle affected: vehicles registered from 1 April 2016 over 3.5 tonnes belonging to one of the following international categories:

- M (transport of passengers),
- N (transport of goods),
- O (trailers) exceeding 3.5 tonnes.

These HGVs must be equipped with high-visibility, class C conspicuity markings, which is the highest reflection level. Available in 3 colours:

> YELLOW to be applied on entire vehicle, WHITE to be applied on the sides of the vehicle only, **RED** to be applied on the rear of the vehicle only.

#### Where to attach the reflective stripes

Minimum 150 cm Minimum 25 cm

Rigid surface

Cylindrical outline

Since 1 January 2021, a measure to improve the safety of vulnerable road users on public roads has been mandatory in France. A warning notice regarding blind spots must be visibly attached to the sides as well as the rear of HGVs over 3.5 tonnes.

There are several products available for this new measure. Please contact the HEXIS sales team.

#### DECORATIVE RETRO-REFLECTIVE FILMS

#### R3000

#### **2D**

#### **LONG-TERM**

#### **PERMANENT**

The particularity of these films is that they reflect light. They are perfect for decorative lettering on flat or very slightly curved surfaces. The polyethylene liner offers better dimensional stability and thus avoids curling.

## OUBLE-SIDED TAPE

## ACRYLIC TAPES

Suitable for structural bonding on various surfaces: wood, metal, glass and most synthetic materials.

High initial tack and very high ultimate adhesion. These double-sided tapes replace screws and rivets. Perfect sealing. Resistant to UV rays, solvents and humidity.

**Applications:** advertising totems, mounting beadings, mouldings, emblems and reinforcement parts.

Typical applications for transparent tapes: light boxes, applications on Plexiglas®.

#### **BASIC APPLICATION TIPS**

Transfer papers are for wet application. Transfer films are for dry application.

#### TRANSFERRING SMALL LETTERING (SMALLER THAN 1 CM)?

Use a medium-tack tape such as HEX915.

#### **APPLYING IN COLD WEATHER** (UNDER 10°C)?

We recommend a high-tack tape.

#### TRANSFERRING DIGITAL PRINTS?

Use HEX100i transfer paper for kits. You can use it for transferring digital prints with solvent, eco-solvent and UV

#### TRANSFERRING S5DEPM ETCHED GLASS FILM?

Use HEX100i and HEX930 tapes.

#### TRANSFERRING LIGHT COLOURED **LETTERING?**

You can use HEX910. A transparent transfer film is preferable so you can better see the light colours.

#### **WANT TO MAKE A KIT?**

Use HEX100i, HEX910 or HEX930.

#### **TRANSFERRING FLUO VINYL?**

You can use the HEX750.

#### **APPLYING ON A WALL?**

HEX910 is perfect for transferring vinyl with reinforced adhesive.

Tip: leave a frame of vinyl on the tape around your cutout.

#### **HEXIS ADVICE**

For 3D use, it is recommended to print the **KROMPRINT** with solvent inks and to laminate with **PC300**. For 2D use, all printing technologies are suitable and can achieve equally spectacular effects. It is recommended to laminate with **V750** or **VRC750**.

## BANNER SPECIAL PREMIUM CAST FILM

#### **LONG-TERM**

#### **PERMANENT**

The VTB901WG1 film is equipped with a PE liner for superior print quality. Its excellent opacity and adhesion over time ensure perfect, durable results. This film offers a high resistance to adverse weather and mechanical stress (e.g. automatic cleaning). Designed for quick application, it minimizes vehicle downtime.

#### **DATA SHEET**

- > PRINTABLE WHITE FILM, GLOSS
- > HIGH-PERFORMANCE CAST PVC
- > THICKNESS 80 MICRONS
- > ACRYLIC ADHESIVE & PE LINER
- > COMPATIBLE INKS: ECO-SOLVENT, SOLVENT, LATEX AND UV
- > DURABILITY OF UNPRINTED FILM: UP TO 5 YEARS
- > AVAILABLE IN WIDTHS OF **1520 MM** X **45 LM** (OTHER LENGTHS AVAILABLE)

#### **CREATE YOUR OWN 130-micron PRINTED COMPOSITE**

Combined with VTB901WG1, the PTB900 laminate extends the composite's durability to up to 5 years.

PTB900: Transparent cast PVC laminate, 50 microns

- Gloss (G), matt (M) and satin (S) finish
- · Acrylic adhesive & PE liner
- Available in 1520 mm width x 50 lm

#### THE HEXIS PLUS

Products compatible with HEXIS banners (FRONTM1EV2, FRONT2V3S, etc.)

#### **HEXIS ADVICE**

For easy installation, the VTB901WG1 offers a strong and immediate adhesion.

Make sure to use our HEX904 tape. Once the film is installed, you can remove the tape immediately.

## SKINTAC THE190EVO

#### PREMIUM CAST FILM

#### LOOKING FOR A HIGH **QUALITY CAST FILM THAT'S EASY TO APPLY?**

Hexis has developed THE190EVO, the next generation of digital printing films, for people just like you.

It offers properties like conformability, adaptability and an excellent gloss finish, making it suitable for use in all sorts of scenarios: wraps, vehicle fleets, interior decoration, boat wraps, etc.

The THE190EVO is used with our range of range of PC190 high performance cast laminates in gloss, satin or matt finish but can also be combined with other cast laminates.

#### THE HEXIS PLUS

For optimum durability of the composite, the laminate we recommend the most is PC190

Other laminates that can be combined with THE190EVO: the PC300, PC500, range (PVC-free, very high protection, UV-resistant), the structured **PCCARBON** range (structured carbon effect) / PCSTAR (sparkle effect), etc.

#### **DATA SHEET**

- > PRINTABLE WHITE FILM, GLOSS
- > HIGH-PERFORMANCE CAST PVC
- PERMANENT SOLVENT-BASED GREY ACRYLIC ADHESIVE, WITH A TAKE HEAT EASY® MICRO-STRUCTURE
- THICKNESS 50 MICRONS
- > FOR INDOOR AND OUTDOOR APPLICATION
- COMPATIBLE INKS: ECO-SOLVENT, SOLVENT, LATEX AND UV
- DURABILITY OF UNPRINTED FILM: 10 YEARS (VERTICAL OUTDOOR APPLICATION)
- > AVAILABLE IN WIDTHS OF 1370 AND 1520 MM X 45 LM (OTHER LENGTHS AVAILABLE)

**HEXIS CATALOGUE 2022** www.hexis-graphics.com

New technology providing low initial tackthanks to the combination of a new solvent-based adhesive and textured liner.

Cast PVC offering extreme conformability for installations on 'tricky' surfaces such as rivets, rear-view mirrors, etc.

- Low initial tack
- Repositionable, printable cast film

## THE190EVO: The Benefits

TAKE HEAT EASY® (THE) combines a new textured liner with a **new solvent-based adhesive** to reduce the film's initial tack, making it easier to apply. All installers, including beginners,

Our printable film itself has also been optimised. Like our HX190WG2 it is still a 50-micron film, but our chemists have integrated a special layer to make it more opaque.

Try it - you'll love it!

#### **→ 100 SERIES**

## PREMIUM CAST FILMS

**3D** 

1

**LONG-TERM** 

FULL WRAPS PRINTED

**PERMANENT** 

#### **PRINTABILITY**

Compatible with all printing systems

Optimised ink coverage

Alleviates printing flaws due to inaccuracies of the printing system

#### **INSTALLATION PROPERTIES**

Multilayered film. Regardless of ink coverage, the tack perceived during installation remains the same.

Thanks to their composition, these films lower the risks associated with installation quality.

#### **EASE OF APPLICATION**

You can choose a 30- or 50-micron laminate to optimise the handling and get an easier installation.

## ◆ PVC-FREE FILMS

2D+

**LONG-TERM** 

**PERMANENT** 

**M1 FIRE RATING\*** 

## What are the benefits of PVC-free films?

These products reduce the impact on the environment thanks to their specific manufacturing process. HEXIS consumes less energy during production. Furthemore, fewer petroleum-based organic materials are used.

The **HX500WG2** is a 50-micron PVC-free film for 2D+ surfaces. The highly conformable **PC300** and **PC500** laminates allow for very long term customisation of many materials.

## Recommended laminates The PC500G2 and PC500M,

due to their formulation, allow an optimised installation. The **PC300**, with its thickness of 30µm, allows you to obtain a particularly flexible compound. Your squeegee glides easily over the lamination and saves you time during installation.

**PL300CG2** is a 30-micron clear latex laminate coated with an acrylic pressure sensitive adhesive.

\*tested and applicable for the **HX500WG2** with **PC500M** compound

# FULL WRAPS AND WALL WRAPS

#### **LONG-TERM**

These laminates are ideal to protecte your digital prints applied on a vehicle.

Combined with HX190WG2 or THE190EVO (see page 79 & 80), they offer a 80 to 100-micron composite, which is easier to apply and remove than a non-laminated printed film.

Laminates recommended for the **100 SERIES** (see page 80, or for reinforced products, see page 94).

# DECORATION SPECIAL

HEXIS SAS is the first supplier of self-adhesive films to provide a library of largeformat textures, infinitely adaptable and in high definition, as a free service.

The material experience by HIXIS

#### **HEX'PERIENCE IS:**

- Graphics files
- in large format L = 1300 mm
- H = 3000 mm
- in a range of unique and infinitely adaptable designs
- in high resolution (200 dpi)

### THE BENEFITS:

- Less stock
- More added value
- Ease of use
- Infinitely customisable
- Ability to mix the files with each other

# HOW TO BUILD YOUR HEX'PERIENCE IN 5 STEPS

# NO, 1

#### Choose your printing film:

Durability, conformability, type of adhesive, indoor/ outdoor display

## NO, 2

#### Download the texture of your choice: Infinitely customise your work via our website www.hexis-graphics.com/en/hexperience

NO. 3

Print

## **NO.4**

**Laminate** and/or protect your prints in an original and realistic way.

# NO. 5

Apply, All you have to do now is to apply

Explore our dedicated decoration area at: www.hexis-graphics.com/en/hexperience

There you will find the texture library, pictures of completed projects, tips & tricks, the latest trends and lots more

# HOW TO IMPORT PATTERNS INTO PHOTOSHOP

## NO. 1

download the texture files

## NO. 2

In Adobe Photoshop, open your chosen texture file

# **NO.3**

Select > **select all**(Ctrl + A in Windows / Cmd + A on Mac)

Edit > **Define pattern** (if you like, you can name the new pattern)

# **NO.4**

Create a new document in the **actual size** of the substrate to be covered at **200 dpi** 

# NO. 5

Select > select all, then edit > fill with pattern Choose the pattern and validate

#### THE TYPES OF ADHESIVE ACCORDING TO THE SUBSTRATE

### Which type of adhesive goes with which substrate?

This guide is designed to help you choose which type of printing film to use depending on the substrate to cover.

We recommend you do a preliminary test on a small surface.

#### ESPECIALLY FOR COTTON & POLYESTER

Our new films are specially designed for printing with DTF printing solutions - **Direct To Film.** 

The advantage of «thick» polyester is that it allows for better printing and unrolling of the film over long lengths.

This film allows for heavy colour printing with the particularity of not having to weed with very good washability (60°C) and the particularity of being able to be stored to meet restocking requirements.

Printing with water based inks and the thinness of the **DTFHPEEL / DTFCPEEL** printable films will allow an unprecedented flexibility and lightness of the markings.

**HEXIS** DTF films will save time in the production of your markings, no more screen printing frames, engraving, cleaning and degreasing.

#### **WINDSCREEN PROTECTION**

#### WINDSCREEN PROTECTION FOR PASSENGER VEHICLES

Specially designed for windscreens of passenger vehicles, **33335HIELD** offers a premium solution combining protection and visual comfort.

Designed in the USA, 3333SHIELD is made up of three removable layers of optically clear, 75-micron polyester.

This film protects against UV rays whilst also preventing scratches, cracks and shocks.

Peeling off the upper layer reveals a new protective layer, regaining clear, unobstructed vision.

PRODUCT CODE	THICKNESS MICRONS	LINER	WIDTH MM	LENGTH LM	PRECUT

3333SHIELD	PRECU <sup>-</sup>	Г 1524ММ Х 5	-	AVAILABLE	
	PRECUT	1520MM X 10	-	- LATER IN 2022	

#### WINDSCREEN PROTECTION FOR RACING CARS

During car races and other competitions, windscreens have to withstand projectiles, scratches and mud splashes.

Specially developed for racing cars, **4444RACING** offers extreme protection and is made up of four removable layers of optically clear polyester.

Applying **4444RACING** to the windscreen helps regain unobstructed vision of the road and other competitors by removing the upper layer.

PRODUCT CODE	THICKNESS MICRONS	LINER	WIDTH MM	LENGTH LM	PRECUT

## AUTOMOTIVE SOLAR FILMS

#### **SKYFALL**

# Tint your life!

# PROTECTION AND CUSTOMISATION FOR WINDOWS

**SKYTINT**, comprises two ranges of solar films: **SKYFALL & MAJESTIK**,

They constitute a true protective barrier against the harmful effects of the sun.

Innovative technologies offering the perfect combination of style, safety and personal health.

• 100% compliant with legislation in force

#### SKYFALL:

Developed in the HEXIS R&D laboratory, the SKYFALL range is the perfect alliance between efficiency and performance.

Metal-free film equals no interference with mobile phones, GPS or radio reception signals

Protection against UV rays

Anti-scratch coating

Heat protection, up to 43% of solar energy rejected

Durability of 10 years

A range of 6 shades, from the lightest to the darkest

#### INFORMATION

In France, tinted windows are not prohibited, but the tint is now regulated for the front windows of vehicles. Article 27 of French decree No. 2016-448 of 13 April 2016, which came into force in 2017, prohibits tinted side windows at the front of a vehicle if their transparency is less than 70%. This new regulation does not affect the rear windows. Please refer to the regulation in your country.

#### **MAJESTIK:**

Proven in space and automotive industries, nano-ceramic technology has been chosen by HEXIS to design MAJESTIK - a range of intelligent solar films that will revolutionise your driving experience.

The nanoscopic powder encapsulated in the MAJESTIK film provides unique properties.

#### WELL-BEING

Unrivalled thermal comfort

Visual comfort: excellent glare reduction
Perfectly balanced light transmission, clear field of vision

#### **PROTECTION**

Shield against UV and infrared solar radiation Constant temperature in the passenger compartment Anti-scratch coating

Preservation of the shine of leather and fabrics

#### SECURITY

Privacy and confidentiality: passengers and personal belongings protected from prying eyes

Reducing the risk of burglary and intrusion

#### AESTHETIC APPEA

A palette of 7 colours to personalise your style

#### PERFORMANCE

Exceptional durability of 15 years

Energy savings: moderate use of air conditioning

# GOOD REASONS TO CHOOSE

For the quality of the courses: the training provided in **HEXIS** Training Centres

For optimal learning conditions: small groups of maximum 4 people for a personalised follow-up

For the tour of the production facility at the end of the course, a unique immersive experience much appreciated by our trainees

For its satisfaction score: 3.8/5: is the average of the quality criteria\* evaluated by the trainees who came since 1 January 2021\*\*.

For the quality of his teaching: trainers rooted in a professional reality and educational tools adapted to facilitate learning

For the quality of the training sites and the reception: more than 250 m² allocated to training

For the scope of its services: Two training centres in France, in the south in Frontignan and in the north in Lille

For its commercial offer: for 2 training courses ordered, a 20% discount is applied

For its annual reach: over 300 days\*\*\* of training every year!

For its know-how: Who better than Hexis to train you to apply self-adhesive film?

**■** RÉPUBLIQUE FRANÇAISE

The quality certification has been awarded in the category: Training courses

<sup>\*</sup> Rated criteria: Working environment >> 4/4 | Training programme >> 3.8/4 | Training material >> 3.4/4 | Tools made available >> 3.7/4 | Welcome and Support >> 3.8/4

<sup>&</sup>quot;Survey carried out on trainees' on-the-spot evaluations between 01/01/2021 and 01/10/2021

<sup>&</sup>quot;Study conducted in 2019

## **BASIC**

#### PUBLIC:

This course is recommended for any professional planning to work in the fields of sign-making and visual communications. It aims to teach the basic principles of self-adhesive films, how they should be handled and applied.

#### PREREQUISITES:

None

#### **OBJECTIVES:**

- ➤ Knowing the different types of self-adhesive films for signage
- ➤ Skill in the technique of applying self-adhesive films for signage

#### **TEACHING METHOD:**

The teaching method will be active and participatory

#### **TEACHING MATERIAL:**

Partition, board, window, vehicle

## MONITORING AND ASSESSMENT:

The trainee is assessed throughout the course. Theoretical assessment (MCQ) and practical assessment (application techniques)

#### **DOCUMENTS PROVIDED:**

- > Attendance record
- > Certificate at the end of the course with the results of the assessments for each objective
- > Practical sheet for installation method
- ➤ A certificate of work completed

#### **INSTRUCTORS:**

**HEXIS** training staff

#### NUMBER OF PARTICIPANTS

2 days i. e. 16 hours

DURATION

4

- > PRESENTATION OF PARTICIPANTS AND THEIR EXPECTATIONS
- > KNOWLEDGE AND EVALUATION OF DIFFERENT TYPES OF SELF-ADHESIVE FILMS
- > INTRODUCTION TO INSTALLATION TOOLS AND ACCESSORIES
- > PREPARATION OF THE SUBSTRAT
- > WEEDING AND TRANSFER OF CUT LETTERS WITH TAPE
- > POSITIONING THE SQUEEGEE
- > WET AND DRY APPLICATION METHODS
- > APPLICATION TECHNIQUES DEPENDING ON THE TYPE OF FILM
- > CUTTING TECHNIQUES ON DIFFERENT SUBSTRATES (BOARDS, WINDOWS, VEHICLES)
- > FINISHING
- > VISITE OF THE PRODUCTION SITE
- > END-OF-COURSE ASSESSMENT

#### **DISCOVERY**

#### PUBLIC:

Recommended for people who are new to or retraining in the adhesive film installation business and/or who are planning to set up a wrapping business

#### PREREQUISITES:

None

#### **OBJECTIVES:**

- > Knowledge of the different types of self-adhesive films for full wraps
- > Acquire the technique of applying self-adhesive films for full wraps

#### **TEACHING METHOD:**

- > The teaching method will be active and participatory.
- > Use of tools suitable for the application of films for full wraps

#### **TEACHING MATERIAL:**

Vehicles, commercial vehicle doors

#### MONITORING AND ASSESSMENT:

The trainee is assessed throughout the course. Theoretical assessment (MCQ) and practical assessment (application techniques)

#### **DOCUMENTS PROVIDED:**

- > Attendance record
- > Certificate at the end of the course with the results of the assessments for each objective

Intended for digital printing professionals wishing to optimise the quality of their work through better control of the different devices and software in the chain integrated into a production flow and aiming for optimum colour accuracy.

#### PREREQUISITES:

None

#### **OBJECTIVES:**

- ➤ Know the basics of the digital graphic chain and of colour management
- > Skills in digital inkjet printing
- ➤ Be able to analyse and retouch the colour of digital images

#### **TEACHING METHOD:**

- > Theory and practical application to understand and assimilate the processes of large format digital printing.
- > Various teaching aids such as a visual presentation and printed material will support the training course

# **TEACHING MATERIAL:**

Printer, Illustrator, Photoshop software

#### MONITORING AND ASSESSMENT:

The trainee is assessed throughout the course. Theoretical assessment (MCQ) and practical assessment (application techniques)

# **DOCUMENTS PROVIDED:**

- > Attendance record
- ➤ Certificate at the end of the course with the results of the assessments for each objective
- > A certificate of work completed

# **INSTRUCTORS**:

HEXIS training staff

#### DURATION

#### **NUMBER OF PARTICIPANTS**

2 days i.e. 16 hours

1 or 2

- > PRESENTATION OF THE PARTICIPANTS AND THEIR EXPECTATIONS
- > INTRODUCTION TO DIGITAL PRINTING: DEFINITION
- > BASIC PRINCIPLES AND HOW IT WORKS
- A DIGITAL IMAGE: PRINCIPLE, COLOUR SPACES AND GENERAL CONCEPTS OF COLOUR
- > PREPARATION, OPTIMISATION AND ANALYSIS OF PRINT FILES (ILLUSTRATOR PHOTOSHOP ACROBAT PRO)
- MASTERING DIGITAL PRINTING: PRINTER, RIP, USE AND MANAGEMENT OF ICC PROFILES
- > CREATION OF 3 TO 4 MEDIA PROFILES
- > CASE STUDY BASED ON CLIENTS' EXPERIENCE
- > END-OF-COURSE ASSESSMENT

#### PROGRAMMES OF THE HEX'PERT NETWORK

Our objective is to provide a formal framework allowing professionals in our profession to promote their skills as specialists in the installation and/or full wrap of vehicles. To this end, the mediapplicator must demonstrate his or her skills on several levels. These include technical knowledge, practical skills and the know-how to deal with all known situations and to overcome any new difficulties.

This set of skills is specific. It is rooted in experience (including learning from mistakes), practice, training, a passion for our trade, an eye for detail, a willingness to constantly improve and a natural talent for manual work. It also requires discipline and a logical mind capable of finding solutions.

# **HOW TO BECOME A CERTIFIED INSTALLER?**

To have completed a training course in a HEXIS Training Centre (1) Apply online:

 ${\it https://www.hexis-formations.com/demande-certification.html} \end{cases} \begin{tabular}{ll} \begin{t$ 

(3) Validate the practical test in a HEXIS Training Centre

# WHAT ARE THE ADVANTAGE OF BEING A CERTIFIED INSTALLER?

- Listing on HEXIS communication platforms
- Promotion by Hexis on social networks
- Free ongoing training for life
- Specific discount on the HEXIS catalogue
- Integration into the HEX'PERTS community
- Participation in international conventions
- A line of dedicated fashion wear

### **WARRANTIES**

You will be offer your customers the assurance of quality work. Your skills in this field will have been refined, tested, qualified and certified. For each new contract you can offer better guarantees, with complete confidence.

# **INFORMATION**

HEXIS certified installers are listed in the worldwide network of the HEXIS APPLICATION DIVISION:

www.hexis-training.com

Should you have any questions, please contact us on

export@hexisgroup.com

Ready to join the HEXIS adventure?

# HEXIS OFFERS

# **3 CERTIFICATIONS**

# HEX'PERT SIGN

#### WHO IS THIS COURSE FOR?

Designed for professional installers wishing to be certified for all types of flat and simple curved substrates such as signs, windows, walls, trucks and trains as well as special films.

DURATION	NUMBER OF PARTICIPANTS
1 day (PRACTICAL TEST)	4 Hex'Perts

Mandatory online test, evaluated before the practical test. http://www.hexis-formations.com/demande-certification.html

# **HEX'PERT WRAP**

# WHO IS THIS COURSE FOR?

For professionals wishing to be certified for applying selfadhesive films on 2D and 3D surfaces.

DURATION	NUMBER OF PARTICIPANTS
2 days (PRACTICAL TEST)	4 Hex'Perts
1 day Sign certification acquired	4 Hex'Perts

Mandatory online test, evaluated before the practical test. http://www.hexis-formations.com/demande-certification.html

# HEX'PERT BODYFENCE

# WHO IS THIS COURSE FOR?

Aimed at experienced installers of paint protection films. HEX'Perts will be evaluated on their "traditional" application techniques as well as their precut film expertise.

DURATION	NUMBER OF PARTICIPANTS
1 DAY (PRACTICAL TEST)	4 HEX'PERTS

Mandatory online test, evaluated before the practical test. https://www.hexis-training.com/certification-request.html

# BODYFENCE CORNER, AN INNOVATIVE CONCEPT

BODYFENCE CORNER is a workshop designed specifically for the application of paint protection film.

#### **HOW DO I OPEN A BODYFENCE CORNER?**

# 1/ FOLLOW THE TRAINING PROGRAMME

You must have attended at least one BODYFENCE training session.

#### 2/ GET CERTIFIED

Once training is over, apply for certification online. The purpose of the certification is to validate your technical knowledge and skills.

Finally, to open a BODYFENCE CORNER, you must:

- Comply with the graphics charter
- Apply the specifications
- Master the application techniques

# WHAT ARE THE BENEFITS OF A BODYFENCE CORNER?

BODYFENCE CORNER is not just a name, it's an entire work philosophy, supported by professionals who will provide you with the necessary tools for your shop.

- Discounts on materials and accessories
- Listing on our website
- Communication tools reserved for the network
- Access to a special catalogue
- Free further training
- Featured on social networks
- Support for trade fairs and events

# **INFORMATION**

For more information about BODYFENCE CORNER, please write to:

contact@hexis-design.com

# ◆ THE HEXIS PLUS

#### **HEXIS KNOW-HOW**

Since 1989, HEXIS® has been providing professionals in signage and advertising graphics with expertise in the production of visual communication media.

The only French manufacturer specialised in PVC adhesive coatings,  $HEXIS^{\otimes}$  also produces its own cast films, whose conformability and durability are globally acclaimed.

HEXIS® products are exported to some 50 countries across all continents.

Our in-house chemists are constantly improving our product formulations, innovating to fine-tune the products of tomorrow. In 2010, their research enabled us to launch "green" cast films, free of PVC and plasticisers, and a film with antimicrobial properties, boosting the fight against nosocomial diseases. The latest innovation from HEXIS® R&D is BODYFENCE, a self-healing furniture and paint protection film (PPF) available in ultra-transparent and matt finishes.

In 2020, HEXIS has been able to obtain three ISO certifications. The joint efforts of all teams have enabled the company to renew its ISO 9001:2015 certification for its quality management system. In addition, two new certifications have been obtained: ISO 14001:2015 for the environment management system and ISO 13485:2016 for medical devices, opening up new perspectives in terms of product development and specification in certain specialist markets.

#### WHAT HAS MADE OUR FILMS SO SUCCESSFUL?

For 30 years, HEXIS® films have proven their quality, in particular thanks to:

- > Their performance and our stringent selection of raw materials
- > Total traceability of all production batches
- > Easy weeding and cutting
- > Premium-quality adhesives
- > Outstanding durability

# **CALENDERED OR CAST FILMS?**

At HEXIS®, each film has its purpose and its market.

We have perfected the manufacture of cast films offering high deformation potential, extreme conformability and long durability. Our calendered films are perfect for applications on flat and slightly curved substrates. Smooth or rough surfaces; applications on floors, walls, windows, boards, cars, trains or boats; for lifespans ranging from 2 months to 10 years, HEXIS® has the solution!

Our decorative effects (chrome, sparkle and leather) are ideal for enhancing everyday objects (electronics, household appliances), for furniture restoration and wall decoration.

#### TAKE HEAT EASY AND HEX'PRESS LINERS

Our innovative TAKE HEAT EASY® (THE) and HEX'Press liners® are specifically designed for our high-performance full wrap films.

TAKE HEAT EASY® (THE) combines a new textured liner with a novel solvent-based adhesive to reduce the film's initial tack, making it easier to apply. All installers, including beginners, will love it.

The HEX'Press liner, a polyethylene-coated silicone kraft paper with an embossed surface structure, offers unrivalled adhesive properties: thanks to its air egress system, the film can be repositioned during application, and bubbles and creases can be eliminated much more easily. This results in significant time savings.

HEX'Press and THE products are readily identifiable: product codes starting with "HX" indicate the structured HEX'Press liner, and product codes starting with "THE" indicate the TAKE HEAT EASY® liner.

# THE HEXIS NETWORK, A TEAM OF EXPERTS AT YOUR SERVICE

Our partners are ready to assist you with your projects. A HEXIS team® of application, colorimetry and digital printing professionals is also at your disposal. They offer the essential training you will need to master new applications like full wraps and large-format digital printing – jobs that demand greater expertise to take full advantage of our innovative media.

To support our experts, the "Professionals" section of our website, www.hexis-graphics.com, provides all the technical information you could ever need: data sheets, application guides, ICC profiles, application photos, etc.

### **MADE IN FRANCE**

HEXIS products are manufactured in France at our production sites in Frontignan (Hérault) and Hagetmau (Landes). All our packaging bears a "Made in France" label.

By doing our bit to promote French know-how, we are able to both save jobs and protect the environment.

# PRODUCT SAMPLES AND SWATCHBOOKS

To receive sample sheets of our products in A4 or A5, swatchbooks or colour charts, please contact us at export@hexisgroup.com, or your local distributor.

# TECHNICAL DATA SHEETS AND PRACTICAL APPLICATION GUIDES

Technical data sheets for our products can be downloaded free of charge from our website:

http://www.hexis-graphics.com under the "Professionals" section

They provide precise technical descriptions of our products. Since specifications may change over time, we recommend you check this section regularly.

# **ICC PROFILES**

Get optimum results from our digital imaging media by downloading the ICC profiles corresponding to your RIP/printer configuration. Regularly check the list of new profiles available:

www.hexis-graphics.com ("Professionals" section)

For any queries regarding ICC profiles, please contact: profils@hexisgroup.com

# **CUSTOM COLOURS**

A custom colour service is available for our colour plotter and wrap vinyls. For more information, including pricing and lead times, please contact your local distributor.

#### **TRAINING COURSES**

Interested in digital printing, solar films, full wraps, Bodyfence or application methods for self-adhesive films? HEXIS $\circledR$  has a training solution to meet your needs.

Please send training-related enquiries to formations@hexisgroup.com or call +33 467 184 278.

# **IMPORTANT INFORMATION**

• Thicknesses and dimensions of products:

Thicknesses are provided for information and for comparison with similar product ranges available on the market. The dimensional tolerances of the rolls conform to the processing and cutting data sheet used by HEXIS®, which can be downloaded from our website: www.hexis-graphics.com 'Professionals' section

· Life spans:

The life spans indicated are for information only and relate to specific colours under specific climate conditions. For further information, please refer to the specifications available on our website.

Colours:

Colours presented in our catalogue are for guidance only and are not contractual. Please contact your local HEXIS® distributor for swatchbooks and colour cards. Free swatchbooks are also available from swatches@hexisgroup.com

· Media for cutting plotters:

Cutting plotter vinyls may have splices. If so, this will be indicated on the packaging.

Media for digital printing:

Our media are developed and tested for machines using the manufacturer's original inks.

· Photos and illustrations:

All illustrations, especially photos of accessories, are non-contractual. Actual appearance of accessories may vary.

# THE REACH REGULATION (REGISTRATION, EVALUATION, AUTHORISATION AND RESTRICTION OF CHEMICALS)

This regulation was adopted by the European Parliament and the Council of the European Union on 18 December 2006. It updates the European legislation with regard to chemical substances and sets up a unique integrated system for registering, evaluating and authorising chemical substances within the European Union. Its aim is to improve the protection of both human health and the environment while maintaining competitiveness and enhancing the spirit of innovation within the European chemicals industry.

# **ANNUAL CONTRACTS**

# PREMIUM ANNUAL CONTRACT.....

# Travel and on-site intervention of a digital imaging technician 2 days per year and which includes:

- · Creation and/or optimisation of ICC profiles (up to 8 custom profiles)
- Advice on machine operation and settings, media settings
- Speed/quality ratio settings and optimisation of ink consumption
- Setting up profiles in the RIP
- Colour management configuration (pre-press and RIP software)

# Plus points:

- · Priority handling of hotline calls by a digital imaging technician with remote assistance
- Testing new printing products in preview
- 40% discount on digital imaging training courses

# BASIC ANNUAL CONTRACT.....

# Travel and on-site intervention of a digital imaging technician 1 day per year and which includes:

- Creation and/or optimisation of ICC profiles (up to 4 profiles)
- · Advice on machine operation and settings, media settings
- Speed/quality ratio settings and optimisation of ink consumption
- Setting up profiles in the RIP
- · Colour management configuration (pre-press and RIP software)

# Plus points:

- · Priority handling of hotline calls by a digital imaging technician with remote assistance
- 20% discount on digital imaging training courses

# **DIGITAL IMAGING SERVICES**

# **ON SITE**

# INTERVENTION BY DIGITAL IMAGING TECHNICIAN 1 DAY......

- Creation and/or optimisation of ICC profiles (up to 4 customised profiles)
- Advice on machine operation and settings, media settings
- Speed/quality ratio settings and optimisation of ink consumption
- Setting up profiles in the RIP
- Configuration of colour management (pre-press and RIP applications)

# INTERVENTION BY DIGITAL IMAGING TECHNICIAN.....

- Creation and/or optimisation of ICC profiles (up to 2 customised profiles)
- Advice on machine operation and settings, media settings
- Speed/quality ratio settings and optimisation of ink consumption
- Setting up profiles in the RIP

# OPTIONAL CONFIGURATION OF THE COLOUR MANAGEMENT (PRE-PRESSE AND RIP SOFTWARE)......

· Only available in addition to the intervention day

# OPTIONAL SCREEN PROFILE CREATION (I1PRO3 WITH I1PROFILER SOFTWARE)

· Only available in addition to the intervention of the digital imaging technicians

# **REMOTE**

# REMOTE CREATION OF MEDIA AND ICC PROFILES.....

- · Remote support for test pattern printing
- · Linearisation, ink rate limitation, profiling, before/after control
- · Installation and setting of the profile in the RIP

# TEAMVIEWER REMOTE ASSISTANCE 30MIN.....

- Checking calibrations and help with machine/software settings
- · Download and installation of a profile in the RIP or printer
- Setting up the profile in the RIP

# GENERAL TERMS & CONDITIONS OF SALE

#### 1- PREAMRIE

- 1.1 The Company 'HEXIS' means all legal entities belonging to the HEXIS group.
- 1.2 These general terms and conditions of sale represent all the stipulations that constitute the offer issued by HEXIS. They shall apply in their entirety to any contract between HEXIS and Customers in France or abroad, regardless of the place of delivery.
- 1.3 These general terms and conditions of sale prevail over all conditions of purchase, except in the case of formal and express derogation from HEXIS. Any conditions contrary to these general conditions posed by the Customer, in the general conditions of purchase or in any other document, shall be unenforceable against HEXIS as long as HEXIS does not expressly accept it.

#### 2 - ORDERS

- **2.1** The Customer's order will only be considered accepted after it has been validated by the Sales Department.
- 2.2 Any request for modification or resolution of the order, requested in writing, must be received by HEXIS prior to shipment of the goods and be agreed upon by HEXIS. If HEXIS does not accept this application, any advance payments may only be returned in product value.

#### 3 - PRICES - OFFERS

- 3.1 Prices are given only as an indication and are in euro excluding taxes; this means that they do not include sales taxes, value added tax or similar taxes, commissions, customs duties or other taxes, insurance or transportation and handling costs.
- **3.2** The prices applicable are those in force on the day of placing the order subject to the special conditions of sale.

#### 4 - INVOICING - PAYMENT PERIODS - PENALTIES

- $\ensuremath{\textbf{4.1}}$  Invoicing will occur on the prices in effect on the day of the order.
- **4.2** Payment of invoices shall be made in advance, except in the event of special conditions of sale.
- **4.3** The payment method accepted by HEXIS is bank transfer. Any other means of settlement will be considered after prior agreement by HEXIS.
- 4.4 Any delay in payment or non-payment on the agreed due dates will, automatically, without formality or formal notice, lead to the requirement of all sums due and the application of penalties equal to three times the legal interest rate referred to in Article L.441-6 of the French Code of Commerce from the date of settlement recorded on the invoice until full payment.

  4.5 By way of a penalty clause, it is agreed that all remaining
- 4.5 By way of a penalty clause, it is agreed that all remaining sums due will be increased by an amount of interest equal to the legal interest amount plus two points and by 10% for collection costs. If HEXIS uses an outside collection company, the costs incurred by the outside collection company will be automatically reflected (or rebilled) to the Customer.
- **4.6** These fees and penalties may be charged directly to Customer discounts where such discounts exist.
- 4.7 In the event of late payment, HEXIS may suspend all outstanding orders, without prejudice to any other route of action.
  4.8 In the event of a material deterioration in the solvency of the Customer, as well as in the event of the cessation or pledge of all or part of the Customer's business assets and even before the execution of the order, HEXIS reserves the possibility either to cancel the order or require payment in advance, or to request additional guarantees.
- 4.9 Any right of retention or compensation with receivables that the Customer may possibly have against HEXIS is expressly excluded.

# 5 - DELIVERY TIMES

- $\bf 5.1$  The delivery times are given only as an indication unless otherwise stipulated.
- **5.2** Any delays due to a case of force majeure as defined in Article 7 of these conditions or justified by a serious reason shall not justify a cancellation of sale, a refusal of goods or a request for damages, or even a deferment.
- 5.3 Delivery times are extended in the event of force majeure or a fortuitous event such as war, riots, local or national strikes, fire, water damage or machinery breakage or any other cause beyond the control of HEXIS or its suppliers. HEXIS will notify the Customer of the problems encountered in order to establish equitable alternatives together.
- ${\bf 5.4}$  In case of late delivery, the goods will be delivered and

invoiced under the initial conditions.

#### A - DELIVERY

- 6.1 With the prices including ex works (EXW Hagetmau, France; ICC Incoterm 2020), unless otherwise agreed in writing, the transfer of ownership and risk to the buyer for all the products becomes effective upon delivery of the products by HEXIS to the buyer's forwarder or agent, independent of the conditions of carriage, the rules of settlement and the costs of carriage.
- 6.2 Liability being transferred to the purchaser once the goods are loaded for transportation, the purchaser is responsible for receiving the complete delivery or, failing that, for making a claim to the carrier if the delivery or part of the delivery is damaged or missing.
- 6.3 Due to damage that may occur during transport, the Customer must check the packages upon arrival. It is essential to check products immediately upon receipt. In case of missing goods or damage or partial loss of the goods, the Customer must express reservations with the carrier on the delivery note. Any concealed damage must be communicated to the carrier within two weeks of receipt of the goods.

#### 7 - FORCE MAJEURE

- 7.1 Any event that is unpredictable or independent of the will of HEXIS meaning that HEXIS is unable to carry out their contractual obligations shall be considered as constituting a case of force majeure, within the meaning of Article 1218 of the French Civil Code.
- **7.2** Total or partial strikes by carriers or within HEXIS and/or its suppliers will be considered force majeure.
- 7.3 Consequently, no liability against HEXIS for nonperformance or poor performance of the contract in the event of force majeure or similar under Article 7.2 may be sought.

#### 8 - RETURN/ GUARANTEES

- 8.1 Without prejudice to the arrangements to be made with respect to the carrier, claims for defects in production or for the non-conformity of goods delivered to the goods order or to the packing slip must be made by international consignments (TNT/DHL) within two weeks of receipt of the goods.
- 8.2 The Customer, to whom it is the responsibility to provide all supporting documents (including batch numbers), undertakes to leave HEXIS the ability to proceed with the finding of defects or anomalies and to remedy them; the Customer is prohibited from intervening, directly or indirectly, with the products.
- 8.3 The goods shall not be taken back or exchanged except in the event of defects in the manufacture or non-conformity of the goods, as duly observed by a person from HEXIS. Any return of goods must be the subject of a formal, written agreement from HEXIS and sent, postage paid, to the address indicated by HEXIS.
- 8.4 No claim will be possible if the goods have been used or processed by the Customer or, in general, if they are no longer in the state in which they were delivered, from the moment when the manufacturing defects or non-conformities which are the subject of the claim may be detected before use. 8.5 In the event of a manufacturing defect or non-conformity of the delivered products, duly recognised by HEXIS under the above conditions, the Customer may obtain, at the discretion of HEXIS, and subject to the conditions laid down in the HEXIS warranty documents, free replacement or refund of the goods, excluding any compensation or damages except in respect of goods benefiting from special guarantee conditions.
- 8.6 Returns of goods will not delay the payment of invoices on the due date.

# 9 - RESERVATION OF OWNERSHIP

- 9.1 All deliveries are made subject to reservation of ownership until full payment of the price in principal and related charges. Payment means the effective receipt of the entire price, the delivery of a check or any other document that creates an obligation to pay not forming a payment.
- 9.2 In the event of non-payment or failure to comply with the payment terms, HEXIS may terminate the sale automatically by registered letter addressed to the Customer and may request the return of the goods at the Customer's expense and risk. The loss or deterioration of the goods will be borne by the Customer in the event of termination of the sale.

HEXIS may unilaterally and immediately draw up an inventory of the unpaid products held by the Customer, without the

- Customer being able to oppose it, and the Customer will also bear the costs of the litigation services as well as any legal and court costs. The products thus held shall give rise to the payment of a depreciation allowance equal to 3% of the price including tax of the goods, per month of detention from delivery to return. The Customer will ensure that product identification is always possible. In-stock products are assumed to correspond to the most recent deliveries (FIFO rule) and will be assumed to be the unpaid ones.
- 9.3 The Customer may resell the goods as part of the normal operation of its business. However, the Customer will lose this option in the event of cessation of payment or non-payment of the price on the due date. In particular, HEXIS reserves the right to claim from the third-party purchaser the price or part of the price that the third-party purchaser has not yet paid to the Customer.
- **9.4** Notwithstanding the application of the aforementioned articles, the transfer of risks to the Customer takes place as soon as the goods are handed over to the carrier.

#### 10 - CONFIDENTIALITY

- 10.1 All information communicated to the Customer or to one of its representatives, including but not limited to technical, industrial, commercial or financial information, whatever the form of communication, including in particular drawings, diagrams, descriptions and specifications, and related documentation, is confidential.
- **10.2** It is the responsibility of the Customer to take all necessary steps to ensure that none of this information is communicated or disclosed to a third party.
- Failure to comply with this obligation of confidentiality may result in termination of the contract, notwithstanding any damages.

#### 11 - INTELLECTUAL AND INDUSTRIAL PROPERTY

- 11.1 HEXIS retains ownership of patents, studies, plans, models and all documents issued or products presented, including materials, ideas, data or other information relating to research and development activities, trade secrets or business affairs communicated to the Customer or known to the Customer in the context of a proposal, offer and/or contract.
- 11.2 These documents are confidential and the Customer shall not report, use, distribute or communicate them to third parties without the prior written permission of HEXIS.

### 12 - LIABILITY

- 12.1 HEXIS's liability cannot be incurred in any case in the event of the use of HEXIS products which does not comply with the requirements set out in the Data Sheets. No complaint or claim for compensation for HEXIS products, or for any damage to the media on which the HEXIS product was affixed or for its reconditioning, will be admissible in the event of non-conforming use.
- 12.2 In no event shall HEXIS be liable for any physical or material damage of any kind, which could be a direct or indirect consequence of improper adaptation of the product or its use which does not comply with the requirements of the HEXIS Data Sheet.
- 12.3 Given the excessive variability of processing tools and application methods, HEXIS cannot be held responsible for the results obtained by the Customer or the implementing conditions of HEXIS Products.

#### 13 - THE COMPETENT JURISDICTION AND APPLICABLE LAW

- 13.1 All disputes arising from the validity, interpretation and performance of these General Terms and Conditions of Sale are subject to French law. All disputes and disagreements, whatever they may be, shall fall within the exclusive jurisdiction of the courts local to the registered office of HEXIS, including in the case of multiple defendants, an interlocutory application or guarantee claim and even in the case of a different jurisdiction attributed on the part of the
- 13.2 Payment drafts or acceptances do not constitute a novation of or exemption from this clause which grants jurisdiction.
- 13.3 In the event of a dispute, prior to litigation, the parties agree to meet in order to find an amicable solution.
